WATER SERVICES

Water Restrictions

On May 1st customers of the nine RDN Water Service Areas will begin Stage 2 watering restrictions. This means that sprinkling can only occur on even days for even-numbered houses and on odd days for odd-numbered houses. Sprinkling is permitted for a maximum of two hours between 7:00 am – 10:00 am or 7:00 pm – 10:00 pm.

Incremental watering restrictions are implemented each year by most water providers in the region to provide a proactive and predictable framework to guide sprinkling practices. This ensures water demands for essential household use, fire protection and irrigation purposes can be met as we prepare for the dry summer period.

For more information on the watering restriction stages for the region and a map that displays the water service areas including their current watering restrictions, visit: www.rdn.bc.ca/watering-restriction-map.
