Title of Presentation: "Consultation Process" or "In Depth Review of Ramifications of Building Inspection and Permits in Rural Electoral Areas"

Outline of topic and identification of specific issues and concerns

- Ramifications to residents in rural areas
- Ramification to municipalities should building inspection be applied to rural areas
- Increasing numbers of low income and fixed income residents: where will they go?
- Should it be a "consultation process" or an in depth review of the needs of the people in the rural areas but also municipalities before mandating building inspection in rural areas?

to Mr. Joe Stanhope

Hello our names are Christopher, Liliana, and Isabella Garbers we currently live on Blind lake at 2740 Heather Way. We wish to support the Addison family on their application to subdivide a 5 acre parcel of their 23 acres of land, for their son Stephen. We feel a minimum size of 5 acres, is a reasonable size to subdivide and will not disrupt the setting or environment of the lake
sincerely yours,
the Garbers Family
